- **Customer Service Lobby with up to 14 car rental companies**
- **Approximately 2,600 Ready/return spaces**
- **Quick Turn Around (QTA) facility with fueling, vacuuming, washing and light maintenance.**

CONSTRUCTION UPDATE

Construction of the new short term public parking and consolidated rental car facility at SAT is moving forward with progress being made on the demolition of the hourly garage. The garage is being torn down and soon, a new \$165.6 million facility will emerge. The facility will house short term public parking and accommodate up to 14 car rental agencies.

Public parking in the 1.8 million square foot, seven-story facility will be available to travelers in late 2017 with the rental care portion slated to be completed in March 2018. During the project, public parking is temporarily relocated. Visitors to the airport have two parking options, Garage Parking or Green Lot.

SAT's Garage option is located nearest to the terminals. The terminal can be accessed via free, air conditioned shuttle bus service or by a covered pedestrian walkway. Shuttle bus pick locations to the terminals in the Garage are located by the elevator banks on Level 1 while the terminal pickup location to the garage is located on the lower level between the terminals, curbside on the center island. Rates for the Garage are up to \$11 a day.

The Green Lot, SAT's most economical option, runs up to \$8 a day. This lot is also serviced by free, air conditioned shuttle bus service. Shuttles run approximately 5-8 minutes continuously so waiting is minimal. Upon arrival to the Lot, visitors should wait at one of the covered shelters for terminal curbside dropoff. Terminal pickup location for this Lot is located on the lower level between the terminals, curbside on the center island.

During high travel season, parking availability in the Garage may reach capacity. Visitors can check parking availability at www.sanantonio-airport.com prior to arriving at the airport. If the parking option of choice is near capacity, it is recommended travelers proceed directly to the next available option. In the event that both the Garage and Green Lot are full, travelers will be directed to the Red Lot, SAT's overflow parking option. The Red Lot is only open as needed.

The new facility is being funded through a Customer Facility Charge, paid only by individuals renting a vehicle at the airport.

SAT FREQUENT PARKING PROGRAM MAKES PARKING EASY FOR FREQUENT TRAVELERS

In a continued effort to meet the needs of customers, SAT announces a new *Frequent Parking Program*. Scheduled to begin October 1, the program is designed around the needs of frequent flyers and business travelers.

Membership benefits include:

- Guaranteed parking even when the Garage is full;
- First-floor card entry to exclusive corral parking with quick access in and out of the garage;
- Parking within walking distance to terminals;
- The card can only be used by one customer at a time, *but can be shared by multiple people within a company or family.*

The *Frequent Parking Program* introductory rate is **\$335 a month** with an initial purchase requirement of 3 months. The total introductory cost equals less than the cost of parking in the old Hourly Parking Garage for 14 days. **Membership is limited** - reserve your card today.

For more information and to reserve your card today, call **(210) 207-3465** or email SATPark@sanantonio.gov.
